## **Performance Report for Kern Regional Center**

Every year, the Department of Developmental Services (DDS) contracts with regional centers in California to serve consumers and families. And, every year DDS looks at how well the regional centers are doing. This report will give you information about your regional center.

Last year, at Kern Regional Center (KRC) we served about 10,030 consumers. The charts on page two tell you about the consumers we serve. You'll also see how well we are doing in meeting our goals and in fulfilling our contract with DDS.

At KRC, we want to improve every year, do better than the state average, and meet or exceed the DDS standard. As you can see on page 2 of this report, KRC improved or maintained its performance in all five areas DDS measures. KRC also met or improved on the DDS compliance standards as seen on page 3 of this report. Improvement on meeting IFSP requirements was only slight and needs to get better. The steps KRC has taken to improve in this area are detailed on page 3.

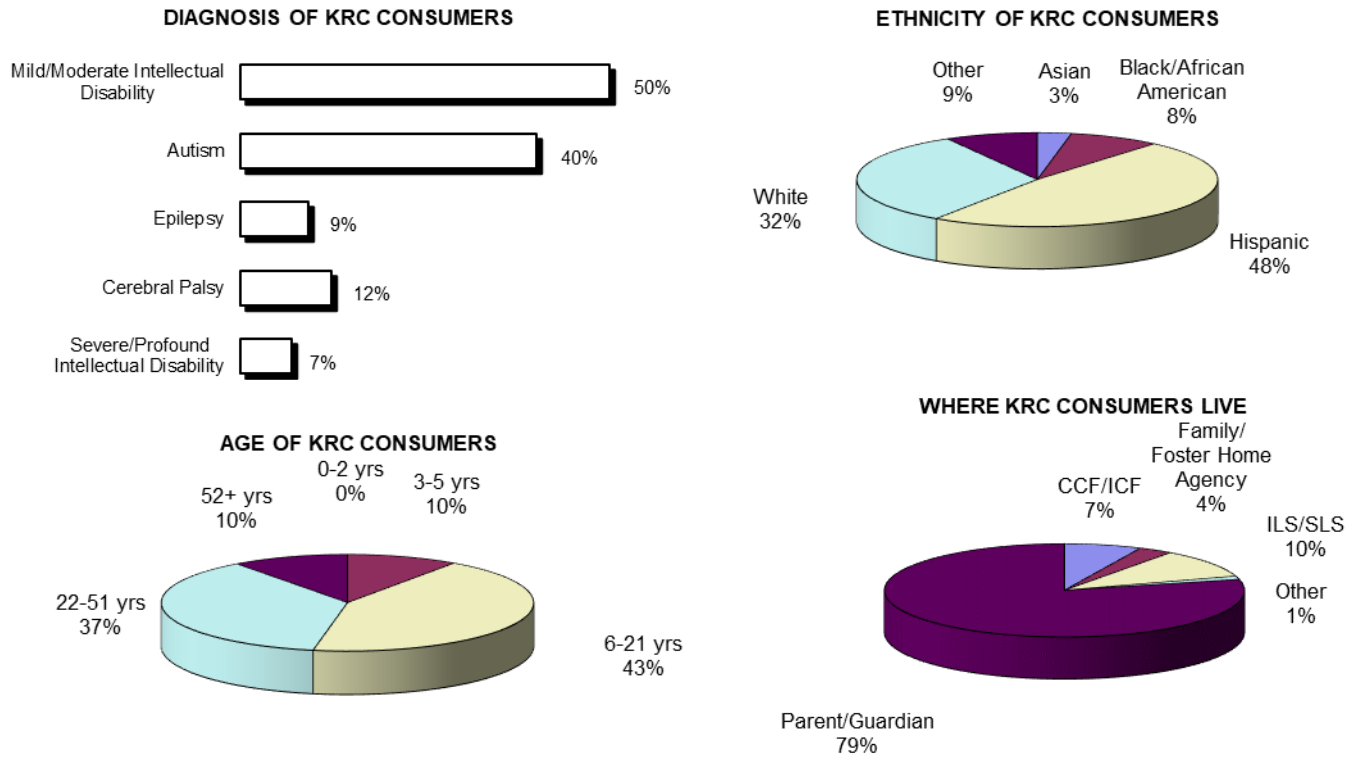

We hope this report helps you learn more about KRC. If you have any questions or comments, please contact us!

This report is a summary. To see the complete report, go to: [www.kernrc.org](http://www.kernrc.org) or contact Darlene Pankey at **661-852-3360**.

## Who uses KRC?

These charts tell you about who KRC consumers are and where they live.

## How well is KRC performing?

This chart tells you about five areas where DDS wants each regional center to keep improving.

The first column tells you how KRC was doing at the end of 2019, and the second column shows how KRC was doing at the end of 2020.

To see how KRC compares to the other regional centers in the state, compare the numbers to the state averages (in the shaded columns).

Regional Center Goals (based on Lanterman Act)	December 2019		December 2020	
	State Average	KRC	State Average	KRC
Fewer consumers live in developmental centers	0.08%	0.10%	0.07%	0.09%
More children live with families	99.44%	99.49%	99.51%	99.49%
More adults live in home settings*	80.84%	85.95%	81.71%	86.07%
Fewer children live in large facilities (more than 6 people)	0.04%	0.00%	0.04%	0.00%
Fewer adults live in large facilities (more than 6 people)	2.15%	1.09%	1.92%	1.01%

Notes: 1) Consumers can be included in more than one diagnosis category. 2) Residence Types: CCF/ICF is Community Care Facility/Intermediate Care Facility; ILS/SLS is Independent Living Services/Supported Living Services. 3) Home settings include independent living, supported living, Adult Family Home Agency homes, and consumer family homes. 4) Green text indicates the RC remained the same or improved from the previous year, red indicates the RC did not improve.

Summary Performance Report for Kern Regional Center, Spring 2021

### Did KRC meet DDS standards?

Read below to see how well KRC did in meeting DDS compliance standards:

Areas Measured	Last Period	Current Period
Passes independent audit	Yes	Yes
Passes DDS audit	Yes	Yes
Audits vendors as required	Partially Met	Met
Didn't overspend operations budget	Yes	Yes
Participates in the federal waiver	Yes	Yes
CDERs and ESRs are updated as required (CDER is the Client Development Evaluation Report and ESR is the Early Start Report. Both contain information about consumers, including diagnosis.)	95.21%	98.48%
Intake/Assessment timelines for consumers age 3 or older met	91.82%	100%
IPP ( <i>Individual Program Plan</i> ) requirements met	97.42%	N/A
IFSP ( <i>Individualized Family Service Plan</i> ) requirements met	75.5%	75.7%

Notes: 1) The federal waiver refers to the Medicaid Home and Community-Based Services Waiver program that allows California to offer services not otherwise available through the Medi-Cal program to serve people (including individuals with developmental disabilities) in their own homes and communities. 2) The CDER and ESR currency percentages were weighted based on the RC's Status 1 and Status 2 caseloads to arrive at a composite score. 3) The IFSP calculation methodology was changed from composite to average in order to more accurately reflect the RC's performance by only including children reviewed during monitoring and not all Early Start consumers. 4) N/A indicates that the regional center was not reviewed for the measure during the current period.

Kern Regional Center's performance data for the IFSP requirements is obtained by average score instead of the composite score, which statistically yields an overall lower performance score. As a result of the 2019 Early Start monitoring review, KRC developed and implemented additional assessment resources to respond to Early Start referrals and improved compliance with the 45 day intake timeline requirement to 100%. KRC also restructured its Early Start Team in the past year to lower caseload numbers for service coordinators and improve quality provision of case management services to Early Start children and their families. KRC program managers overseeing the Early Start teams continue to support and train their staff to ensure documentation on the IFSP adheres to the requirements set forth in the Code of Federal Regulations Title 34 and Title 14 of the California Intervention Services Acts. KRC program managers follow up with their service coordinators to create and enter Early Start Reports (ESR) for children in status 1 which is reflected in the above chart. KRC will continue to work diligently to address and improve all compliance and performance standards in the area of IFSP requirements for children and families receiving Early Start services from Kern Regional Center.

### **How well is KRC doing at getting consumers working?**

The chart below shows how well KRC is performing on increasing consumer employment performance compared to their prior performance and statewide averages:

Employment data not yet available – data will be added to the final year-end report.

### How well is KRC doing at reducing disparities and improving equity?

These tables show you how well the regional center is doing at providing services equally for all consumers.
