Presentation by the SAE Unit:

The SAE Team identifies community needs by collecting inquiry forms at events to support individuals with developmental disabilities through tailored services and training. The SAE Unit enhances these efforts by organizing committees, sharing updates, and gathering feedback to align services with community priorities.

The team also oversees grant initiatives to improve access to underused services by identifying gaps and developing strategic solutions. A key project, the Child Find Initiative, partners with clinics and schools to connect children with early intervention services.

Throughout the year, the team coordinates special events such as the Vendor Fair, art contests, and backpack distributions to further engage and support the community.

All the information about events can be found on our website. Kernrc.org.

Q&A

- A participant asked about when the Self Determination meetings take place.

- A question about the day and time for the listening sessions, and the language of the session.

-A participant asked if there will be any activities during the holidays, when children are not attending school.

_ Additional questions: Can anyone in the community get involved in helping the KRC community?

-A member of the community would like to extend congratulations to the Listening Session Program staff and their efforts to engage with the community in multiple languages. She had the opportunity to attend four of those sessions, and she truly appreciated the experience.
